

AlcoTec® Instructor's Course in Aluminum Welding Technology.

AlcoTec Wire Corporation, the most trusted name in aluminum welding, is pleased to announce the first program for Aluminum Welding Technology designed specifically for Welding Instructors.

AlcoTec's Aluminum Welding Technology program has been running for over 15 years and our instructors have over 100 years of combined aluminum welding experience.

Even though aluminum is becoming increasingly prevalent in the manufacturing industry, most welding students are receiving very little training in aluminum welding. This program provides welding instructors with the information and tools they need to effectively introduce their students to aluminum welding.

What You Will Learn

Classroom & Laboratory

- Alloy system
- Temper designations
- Material preparation
- Discontinuities
- Power supplies
- Transfer modes
- Feedability
- Material storage
- Metallurgy
- Applications
- Joint designs
- Welding procedures

This program is designed to incorporate both the theoretical and practical, hands-on approach to the welding of aluminum alloys.

The classroom instruction includes an understanding of the theory and general characteristics of the various aluminum alloys and tempers. Our laboratory is set up with MIG (GMAW) and TIG (GTAW) welding stations for hands-on application.

Personal protective equipment is provided, but you are welcome to bring your own as well. Personal protective equipment must meet current OSHA requirements for welding.

Program Dates and Enrollment

Visit alcotec.com/weldschool for program dates or call 231-941-4111 to arrange customized classes and alternative dates or locations.

To enroll, please complete the registration form and mail or fax to AlcoTec to the attention of Technical Services.

Registration is also available online by visiting AlcoTec's website at alcotec.com/weldschool.

Program Fee

\$500 USD/CAD, including applicable taxes, payable on the first day of the program. Payment is accepted by check or Visa/Mastercard/American Express.

This includes breakfast and lunch each day, transportation to and from your hotel to the program site, and an extensive library of technical literature and data.

Certificates will be issued to all participants upon program completion.

Accommodations

Each participant is responsible for arranging their hotel accommodations and covering all associated costs. AlcoTec has preferred rates at a partnered hotel. Hotel details will be provided upon confirmed registration in the program.
